

Module Overview

Overview

In this module we will overview the course and establish what you will need to be successful. Flourishing in this course is more than achieving academic success. We will spend time this module establishing what is foundational for our learning communities safety and well-being too!

Learning Objectives

At the end of this module, you will be able to:

Objective 1: To create a classroom community that fosters self-exploration, critical thinking, and communal learning through the establishment of a brave space where students feel empowered to share, reflect, and engage in meaningful dialogue.

Objective 2: Critical Examination of Space and Safety Facilitate a discussion around the concepts of 'safe' and 'brave' spaces. Begin by defining each term and then encourage students to reflect on their experiences in different learning environments.

Objective 3: Explore the course requirements and structure in support of a productive semester and an engaged learning community

Learning Activities

During this module, you are expected to:

- 1.) Read and watch/listen to all required digital content
- 3.) Participate in class
- 4.) Complete Asynchronous Class assignment
